ICT & DIGITAL SUPPORT – Q4 2026 OKRs

Individual OKRs – ICT & Digital Support | 1 October–31 December 2026 | Prepared 13 October 2026

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
1. Improve Website Accuracy, Admissions and Search Visibility	Keep 100% of published course and fee updates aligned with approved information.	Confirm details with Admissions and Finance; update the website and check the published pages.	Ongoing; monthly review
	Ensure at least 98% of valid demo applications reach the authorised destination during release testing.	Test contact validation, required fields and application handoff on demo; retain results and fix failures.	Each relevant release
	Include 100% of active, approved course pages in the sitemap and relevant website links.	Recheck the search audit findings; correct course discovery and verify sitemap entries and links.	By 30 November
	Complete and verify at least 3 priority mobile performance or usability improvements.	Use the audit and mobile checks to select fixes; compare the same pages before and after each change.	By 30 November
	Complete 3 monthly reviews of website traffic and search visibility.	Confirm first-party analytics data; arrange authorised Search Console access and record available results and gaps.	October, November, December

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
2. Improve Reception and Staff Reporting Workflows	Complete one signed-in staff acceptance review for Reception and one for Reporting; resolve or assign every finding.	Ask staff to check registration, checkout, record permissions and dashboard links; log results, owners and due dates.	By 31 October
	Review the expanded Reporting modules on a demo or private staging environment and release the approved scope.	Reconcile local and live versions; demonstrate admissions, intake, meetings, reminders and OKRs; deploy after sign-off.	Review by 30 November; approved release by 31 December
	Assign an owner, baseline and evidence source to 100% of adopted Q4 key results.	Confirm accountable staff and measurement rules; enter adopted targets in the OKR register when available.	By 30 November
	Record decisions and next actions for all pending Reception notification, location-checkout and recovery requirements.	Review provider approval, physical boundary tests and backup ownership with the responsible departments.	By 30 November; monthly follow-up
	Complete Wingu field mapping and one non-submitting dry run after the required inputs are approved.	Obtain the attendance-format decision and correction owner; use a human-authenticated session and document the result.	By 31 December, subject to owner inputs

Proposed targets for review. Confirm the owner and dependencies; retain evidence for completed results.

ICT & DIGITAL SUPPORT – Q4 2026 OKRs

Individual OKRs – ICT & Digital Support | 1 October–31 December 2026 | Prepared 13 October 2026

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
3. Prepare a Governed Virtual Campus and AI Support Pilot	Pass one 20-minute live-class acceptance session on two real devices with a lecturer and learner.	Check audio, video, screen sharing, reconnect and paid/unpaid access on staging; record and address failures.	By 30 November
	Record a pilot go/no-go decision with an owner and next action for every outstanding launch requirement.	Review course and learner data, assessment rules, mail, privacy, capacity and recovery evidence with the Academic lead.	By 31 December
	Ensure 100% of lessons selected for an approved pilot have captions and a low-bandwidth option.	Check selected lesson materials; confirm live-caption arrangements and support guidance before the pilot starts.	Before any pilot launch
	Review at least 20 common questions for Smart Lecturer and the website assistant; all reviewed answers must use approved sources or refer to staff.	Check existing prototypes against current course and policy information; correct unsupported answers and record the review.	By 31 December

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
4. Strengthen Security, Recovery and Release Reliability	Assign an owner and deadline to every open critical/high audit finding and verify all fixes approved for Q4.	Recheck the hosting and system findings; prioritise access, exposed services and patching; retain evidence or blocker reasons.	Owners by 31 October; fixes by 30 November
	Complete one documented restore exercise each for the website, Reception and Reporting.	Confirm backup owners and restricted locations; restore data and required keys in an isolated environment and record results.	By 31 December
	Complete one access and secret-storage review for every maintained system.	Review privileged accounts, approved staff access and secret-file permissions; remove or correct unauthorised access.	By 30 November
	Ensure 100% of production releases have demo/staging results, a rollback reference and post-release verification.	Use the release checklist; confirm real-page status, asset/release version and runtime errors; record the outcome.	Every release

Proposed targets for review. Confirm the owner and dependencies; retain evidence for completed results.

ICT & DIGITAL SUPPORT – Q4 2026 OKRs

Individual OKRs – ICT & Digital Support | 1 October–31 December 2026 | Prepared 13 October 2026

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
5. Deliver Consistent Posters and Communications Support	Deliver at least 90% of assigned poster and design requests within the agreed turnaround.	Confirm each brief, required content and deadline; create or revise artwork and track handover and delays.	Continuous; monthly review
	Check and obtain approval for 100% of final artwork before release.	Review branding, readability, dates, contacts and any prices against approved information; retain the approval.	Every handover
	Retain editable sources and required print/digital exports for 100% of completed design requests.	Save approved versions in the shared library with clear names, source files and handover records.	Every handover
	Complete 3 monthly reviews of the communications library.	Update approval status, group repeated copies and archive outdated artwork so current materials are easy to find.	October, November, December

OBJECTIVE	KEY RESULTS	MILESTONES / ACTIVITIES	TIMELINE
6. Provide Reliable ICT Support and Clear Work Reporting	Acknowledge at least 90% of logged ICT support requests within two working days.	Log staff and desktop issues; give a next action and update unresolved requests until closure or escalation.	Continuous; weekly review
	Record every codebase change in its worklog and provide a daily-report draft for each work session.	Keep evidence and pending work clear; hand the daily draft to the staff member for submission under their own account.	Per change / session
	Complete 3 monthly progress reviews and prepare the Q1 2027 work plan.	Report results against adopted targets, name blocker owners and agree the next quarter priorities with management.	Monthly; Q1 plan by 31 December

Proposed targets for review. Confirm the owner and dependencies; retain evidence for completed results.
